### **Hepavin™**

Hepavin helps remove liver heat and quench liver Yang Rising. Liver heat refers to an over response of the liver to stress hormones such as cortisol and epinephrine with over production of inflammatory chemokines by the liver Kupffer cell. Liver Yang Rising is caused by the brain's response to the inflammatory chemokines. Studies have shown a link between high amounts of chemokines in the brain and brain inflammation. Hepavin helps reduce the liver's exaggerated response to stress and reduce the production of inflammatory chemokines. Brown and LC Balancer are also required to nurture the liver.

#### **1. Anxiety Attacks and Obsessive Compulsive Disorder (OCD)**

Obsessive behavior and/or compulsive thoughts, anxiety attacks, uncontrollable urges, inability to wake up in the morning, or morning shakiness can be caused by liver heat or liver Yang Rising. Patients can experience symptom improvement in 3 days. 3-4 weeks of treatment is required for significant improvement and sustained results.

**Suggested Dosage:** 2 capsules, 2-3 times a day

**Available Volume:** 42 capsules per bottle

**Ingredients:** Cortex Mori, Radix Angelicae Sinensis, Radix Paeoninae Alba, Radix Puerariae, Radix Scutellariae, Rhizoma Chuanxiong, Rhizoma Pinelliae
